

# Moe Rail Precinct Revitalisation Project: Master Plan

The Moe Activity Centre Plan has been identified by Latrobe City Council and the State Government as a regional project of strategic significance with the potential to reinvigorate the Moe town centre, establishing it as a vibrant, dynamic and welcoming centre through implementation of the projects contained within the plan. A Master Plan for the Moe Rail Precinct Revitalisation Project has now been developed using the information obtained from the extensive community consultation that was undertaken during May 2009 and October 2009.
