

LATROBE VALLEY

# Industry Profile

**Latrobe City**  
a new energy

## WHO ARE WE?

We are the innovators, designers, engineers and manufacturers at the forefront of supporting Australia's mining and resource infrastructure development and ongoing operations. Gippsland's Latrobe Valley is built on a history of coal-powered electricity generation; open cut mining operations and associated support industries. These activities continue to shape the industrial landscape and forge a region built on innovation, specialist skills, resource utilisation, project operations and effective environmental management. Today's industry expertise represents a journey that commenced in 1894 with the discovery of brown coal in the area. Our specialist knowledge and skills combine to deliver customised solutions that are tailored to meet the needs of the client and that represent excellent value for money. We understand the need for quality, precision, responsiveness, reliability and accountability, and their impacts on a project's outcome.

## SPECIALIST SKILLS BUILT ON EXPERIENCE

Our skilled tradespeople continue to be the driving force behind Industry within the region. The workforce has contributed to building the nation with the rollout of road projects, establishment of power generation facilities as well as water, rail and gas projects. A network of business services offer expertise in the design and development of specialist equipment for the mining and major construction sectors. These skills and experience are transferable to new and emerging industries including defence, civil construction, hydrogen energy and wind farm production. Our workforce understands heavy industry fabrication requirements from start to finish - from commissioning of specialist equipment to providing assistance and service to better manage equipment fatigue. "We are with businesses for the long haul. We operate on a foundation of technical and practical ability. Precision, Cost Effectiveness and Experience combine toward maintaining a well established national and international reputation."

## WHY DO YOU WANT US?

The specialist businesses showcased within this publication represent a snapshot of skills and capability available and are ready to support a variety of major project activities. Project based design, engineering, manufacture and maintenance service is what we excel at – can you afford not to have these skills at your disposal?

# CONSULTANTS

## ADRA GROUP

Adra Group is a multi-discipline international Engineering Services company, handling any size project in all fields of design and drafting.

We believe in partnering with our clients to provide clever practical and dependable Structural, Civil, Mechanical and Electrical engineering solutions, including:

- Design analysis, computations and reporting
- Design/drafting (electrical, mechanical, structural, piping and civil)
- Detailing (general arrangements, fabrication detail, shop detail, as-builts)
- Drawing systems management
- 3D modelling and animations
- Asset and compliance inspections
- Certification
- Remedial works and re-certification of existing designs
- Project management
- Secondments
- Estimating/material take offs/bill of materials
- Fabrication

Contact: Andrew Quenault  
Phone: (03) 5173 7600  
Email: aquenault@adragroup.com.au  
Web: www.adragroup.com.au

## BEVERIDGE WILLIAMS

Beveridge Williams is a multi-disciplinary team of professionals offering consultancy services in surveying, urban design, town planning, water resources, civil engineering, traffic engineering, construction and project management. The business also offers landscape architecture and environmental consultancy, acting for a wide range of clients including all levels of government, service authorities and development companies.

Contact: Bruce Vroegop  
Phone: 0427 351 152  
Email: vroegopb@bevwill.com.au  
Web: www.beveridgewilliams.com.au

## GHD

GHD is one of the world's leading professional services companies, operating in the global markets of water, energy and resources, environment, property and buildings, and transportation.

Our services cover the entire project lifecycle.

- Business case development and advisory services
- Planning and approvals
- Engagement, communications and consultation
- Engineering design – concept, functional, detailed design.
- Architecture – building, landscape, urban design
- Digital design and modelling
- Geotechnical and laboratory testing
- Environmental assessment and management
- Construction services
- Condition and Compliance inspections
- Risk and Asset management
- The team in Traralgon are connected to a network of 10,000 people globally.

Contact: Patrick Maiden  
Phone: (03) 5136 5800  
Email: patrick.maiden@ghd.com  
Web: www.ghd.com/australia

## HAZCON

HAZCON Pty Ltd is a specialist Health, Safety and Environmental (HSE) consultancy company that provides services to a wide variety of companies and industries throughout Australia. Since 1994, HAZCON has been committed to offering quality HSE and training services to clients and supporting compliance in trade and corporate settings. HAZCON's services include:

- Asbestos advisory services
- Health, safety and environment training
- Occupational hygiene services
- HSE management services
- Environment services

Phone: 1800 HAZCON (1800 429 266)  
Web: www.hazcon.com.au

## HRL TECHNOLOGY GROUP PTY LTD

HRL Technology Group Pty Ltd is a specialist provider of engineering, consulting, inspection, analytical and testing services to energy intensive industries. Our depth of experience covers high temperature-high pressure plant – such as boilers, turbines, pressure parts, gas turbines, pumps and fans, large mining infrastructure, rail transport and materials analysis.

The company uses this expertise to provide laboratory analysis and engineering services (metallurgical, mechanical and process) to a wide range of industrial clients throughout Australia and south east Asia.

HRL's overriding purpose is to dramatically improve the reliability, efficiency, integrity and sustainability of our clients' assets, products, and processes.

Contact: Matthew Baxter  
Mobile: 0409 528 589  
Email: mbaxter@hrl.com.au  
Web: www.hrlt.com.au

## PRO DRAFT

Pro Draft provides engineering drafting services to clients within the mining, power-generation, petro-chemical and manufacturing industries with particular expertise in industrial plant systems, including:

- Design and conceptual development utilising 3D modelling in multiple software platforms
- 3D laser scanning (in-house capability)
- Legacy drawing integration to current platforms
- Electrical and instrumentation design drafting
- Process piping design and modelling
- Structural steel modelling and detailing
- Drawing management services

Contact: Geoff Chilver  
Phone: (03) 5133 8007  
Email: gchilver@prodraft.com.au  
Web: www.prodraft.com.au

## PROMETHEUS GROUP

Prometheus Group, formerly Sage Technology, has been Australia's leading electronic permit to work software developer since 1998. Their award-winning safe work systems have led the way, creating several industry firsts as well as delivering productivity and safety outcomes.

Prometheus Group's safe work system ePAS incorporates permit to work, risk assessment and isolations. Prometheus Group is also a leading global provider of digital maintenance and operations solutions.

Contact: Steven van den Meiracker  
Phone: (03) 5132 2600  
Email: smeiracker@prometheusgroup.com  
Web: www.prometheusgroup.com

## SMEC

SMEC is a professional services firm with Australian origins and a global footprint that provides high-quality consultancy services on major infrastructure projects. SMEC provides consultancy services for the lifecycle of a project, to a broad range of sectors, including:

- Transport
- Water and environment
- Urban development and social
- Hydropower and energy
- Resources
- Industrial and manufacturing

Consultancy services including:

- Pre-feasibility and feasibility studies
- Field investigations
- Laboratory testing
- Computer modelling
- Detailed design
- Tender and contract management
- Construction supervision
- Quality assurance
- Commissioning
- Operation and maintenance
- Training and project management

## ALLFORM INDUSTRIES

Allform Industries is a sheet metal fabrication and light engineering company that have been working to meet industry needs in the resources sector since the late 1990's. The team of fully qualified sheet metal fabricators are experienced in stainless steel, aluminium, mild steel, copper and brass. Using some of the latest CAD packages to design and fabricate to your specifications and drawings.

Allform Industries uses a 4 metre CNC press brake and large table plasma for complex manufacturing, which is brought together by a dedicated team of skilled tradesmen with an emphasis on quality workmanship and excellent customer service.

Contact: Marco Timperio  
Phone: (03) 5134 8411  
Email: marco@allformindustries.com.au  
Web: www.allformindustries.com.au

## ASCLEAR PTY LTD

AsClear Pty Ltd is an industry leader in providing in-house and on-site specialised services in abrasive blasting and coating of structural steel and pipelines, as well as concrete repair, remediation and sealing. AsClear Pty Ltd is WorkCover and EPA licensed to remove, store and transport asbestos.

Contact: Patrick Sleswick  
Phone: (03) 5133 6200  
Email: patrick@asclear.com.au  
Web: www.asclear.com.au

## BMC WELDING AND CONSTRUCTION

BMC Welding and Construction and BMC HV Electrical and Instrumentation are ISO 9001 accredited, and offer a fully integrated turnkey solution for your project and maintenance requirements. Their commitment to quality and safety, "can do" approach and experience in construction, power, oil and gas in Victoria and across the country provide confidence for their valued industry partners.

Contact: Stuart McDougal  
Phone: (03) 5135 6211  
Email: stuartmcdougal@bmcgroup.com.au  
dpease@bmcgroup.com.au  
w.bmcweld.com.au

## DEER PARK OIL TOOLS

Deer Park Oil Tools Pty Ltd provides manufactured equipment and repair services to the oil and gas industry, including premium threading and other machining services for the resources sector.

Contact: Bruce Steer  
Phone: 03 5144 9500  
Email: bruce@deerparkoiltools.com.au  
Web: www.deerparkoiltools.com.au

## DRILLTEC

Drilltec provides drilling services to the mining, exploration, oil and gas, and groundwater industries. Drilltec has a wide range of equipment available for the most challenging ground conditions including a Sonic Drill Rig.

Contact: Ross Alexander  
Phone: 03 5135 3478  
Email: ross@drilltec.com.au  
Web: www.drilltec.com.au

## GENERTECH

Genertech has a long history of working with a variety of original equipment manufacturers. The company undertakes tasks such as the overhaul of electric motors (BBC, AEI, POPE, WEG, Parson-Peeble), electric actuators (Auma, Rotork, Siemens) and the inspection, overhaul and rewind of large electric generators. Accredited with ISO9001 Environmental, OH and and quality.

Contact: Robert Mizzi  
Phone: (03) 5174 5997  
Email: rob@genertech.com.au  
Web: www.genertech.com.au

## GIPPSLAND CNC CUTTING

Gippsland CNC Cutting manufactures custom sheet metal parts for industries from a wide variety of materials and thicknesses, running a 4kw LVD CNC fiber laser, Co2 CNC laser and a plasma/oxy profile cutter with the addition of a 220T 8 axis CNC pressbrake. The use of precision equipment and high-end computer software enables the production of high quality parts to match customer requirements and timeframes.

Contact: Alan Cuthill  
Phone: (03) 5134 1007  
Email: sales@gippslandcncutting.com.au  
Web: www.gippslandcncutting.com.au

## HYDRAULIC AND PNEUMATIC

Hydraulic and Pneumatic design, fabricate and service hydraulic, lubrication and fluid systems, purpose-built power units and custom manufactured cylinders. They have been servicing a diverse range of industries; including power, paper, oil and gas since 1968. A fully mobilised 24-hour breakdown service, on-site diagnostics and programmed maintenance all complemented by their specialised workshop. In addition, they offer in-depth filtration systems, fluid analysis and reporting, high tonnage lifting capabilities, torque wrench and high tonnage re-certification.

Contact: Robert Lewis  
Phone: (03) 5134 1033  
Email: info@hydraulicpneumatic.com.au  
Web: www.hydraulicpneumatic.com.au

## HYDRO AUSTRALIA

Hydro Australia works hand in hand with its customers on improving the reliability and performance of their high energy pumping systems. Services are provided on-site or can be arranged in Hydro Australia's first class workshop. The business focuses on solutions-based results.

Contact: Michael Cooper  
Phone: 0418 581 190  
Email: sales@hydroaustralia.com.au  
Web: www.hydroaustralia.com.au

## JBI ENGINEERING

JBI Engineering provides structural steel, civil and metal engineering services, project management and engineered products. Specialising in metal/steel fabrication, provision of mechanical maintenance, outage and shut down services and all aspects of civil and concreting works.

With a flexible client focused approach, projects adapt to meet the processes, standards, budgetary and timelines of the local major industrial sectors.

JBI Engineering is a quality, safety and environmental endorsed company (International Standards Certification).

Contact: John Bailey  
Phone: (03) 5133 7088  
Email: admin@JBIengineering.com.au  
Web: www.JBIengineering.com.au

## KENNEDY TRAILERS

Kennedy Trailers is family-owned and operated business, priding themselves on custom transport solutions with over 30 years' experience in the manufacturing of logging, mining and heavy transport equipment.

Contact: Chelsea Wellman  
Phone: (03) 5152 6362  
Email: admin@kennedytrailers.com.au

## LATROBE VALLEY INDUSTRIES

Latrobe Valley Industries are leaders in the field of thermal insulation and cladding, and also provide general sheet metal fabrication, light engineering, rigging/scaffolding and labour hire expertise, servicing clients within the construction and maintenance industries throughout the Latrobe Valley region. They are certified to ISO 9001 and AS/NZS 4801, and work in partnership with their clients from project inception through to completion.

Contact: Nick Iacovou  
Phone: (03) 5135 6277  
E-mail: nick@lvindustries.com.au  
Web: www.lvindustries.com.au

## LEND LEASE INFRASTRUCTURE SERVICES

Lend Lease's infrastructure services business has been operating in a resource-driven environment for over 50 years, servicing the power, paper and petrochemical industries. The business provides on-site and off-site mechanical, structural, piping, electrical and instrumentation services, supported by large fabrication workshops with ready access to transport infrastructure.

Contact: Chris Row  
Phone: (03) 5128 7806  
Email: chris.row@lendlease.com  
Web: www.lendlease.com/australia

## MECHANICAL MAINTENANCE SOLUTIONS

Mechanical Maintenance Solutions (Australia) Pty Ltd (MMS) is a multi-discipline engineering services provider to the power, oil and gas, pulp and paper industries. MMS has the project management capability, specialist labour resources and systems to deliver outage, shutdown and rapid mobilisation maintenance projects across Australia. They specialise in delivering complex on-site repairs and installs, including pressure welding and fabrication, conforming to the most exacting Australian and international standards.

Contact: Tim Brown  
Phone: (03) 5133 6133  
Email: info@mms.auz.net  
Web: www.mms.auz.net

## ONSITE MACHINING AND PIPELINE SERVICES AUSTRALIA

Onsite Machining and Pipeline Services Australia is a Morwell-based company that has been providing machining solutions to most major industries throughout Australia for the past 20 years. They specialise in all aspects of on-site machining, valve overhaul, leak sealing, induction bolt heating, controlled bolting, safety valve overhaul (testing and setting), online safety valve setting, hydrostatic testing, and specialised labour.

With purpose-built equipment and world class technicians, they are able to achieve results in a range of challenging environments and diverse scenarios.

Contact Person: Victor Berquez  
Phone: (03) 5133 7988  
Email: omt@onsitemachining-omt.com.au  
Web: www.onsitemachining-omt.com.au

## O&M OPERATIONS AND MAINTENANCE

O&M is a wholly owned and operated Latrobe Valley business providing extensive services to local industry. Services include electrical engineering, civil and earthworks, mechanical, scaffolding, operations and asset maintenance to power, mining and infrastructure clients. Experienced personnel are the drivers behind the business. O&M takes pride in ensuring the right people are selected for the job, to ensure the job is completed safely, on-time and to the highest quality. O&M also holds accreditations in CM3, ISO 9001, 14001 and 45001

Contact: Daniel Lissa  
Tel: (03) 5165 0400 or 0417 124 580  
Email: dlissa@omaustralia.com.au  
Web: www.omaustralia.com.au

## **PFG GROUP VICTORIA**

PFG Group are an award winning local company with a dedicated and highly skilled team who partner with clients to solve problems for complex infrastructure and plant challenges, using engineered polymers and other composite materials. They offer onsite plastic and metal fabrication, rotational plastic moulding and vacuum forming. PFG Service clients who operate in the industrial, mining, water, maritime, aquaculture and defence industry sectors and distribute globally. Certified to ISO 9001 – 2015 and offering inhouse product design and tooling.

Contact: Peter Ceeney  
Phone: 03 5135 3900  
Email: admin-vic@pfg-group.com.au  
Web: www.kielindustries.com.au

## **PLATINUM ELECTRICIANS GIPPSLAND**

Platinum Electricians Gippsland have the ability to carry out a wide range of electrical work in the industrial, commercial and domestic sectors, ranging from small jobs right through to large ongoing projects. Priding themselves on professionalism, top quality workmanship and outstanding customer service, Platinum Electricians Gippsland have a triple certification in quality management, occupation health and safety and environmental management.

Contact: John Grout  
Phone: 03 1300 416 016  
Email: gippsland@platinumelectricians.com.au  
Web: www.platinumelectrical.com.au

## **PRIMAWELD ENGINEERING**

Primaweld Group is a national engineering company based in Morwell, with more than three decades of experience. The business aims to provide a range of services including fabrication of structural steel components, both small and large, fabrication of pipe spooling using a range of materials and configurations, structural and mechanical site installations plus specialised welding both on-site and in their spacious workshop.

Contact: John Vitale  
Phone: 03 5134 5398  
Email: info@primaweld.com.au  
Web: www.primaweld.com.au

## **QUALITECH ENGINEERING**

Qualitech Engineering provides full machine shop precision engineering. Work includes:

- Machining precision CNC/CAD/Cam mazak Mazatrol/hypermill-multi tasking machines
- Bearing remetalling and finish machining

Contact: John Czosnek  
Phone: (03) 5144 1142  
Email: info@qualitech.com.au  
Web: www.qualitech.com.au

## **ROTAFAB PTY LTD**

Rotafab Pty Ltd is an engineering company in the Gippsland region servicing the oil and gas, power, pulp and paper, fishing and general industries. Their workshop is located within an established industrial estate with 6000m<sup>2</sup> of fabrication and machine shop facilities featuring 5, 10, 15 and 32 tonne overhead cranes. Rotafab's services include welding fabrication, pipe spooling, machine shop, rotating equipment repair and industrial coatings. Rotafab Pty Ltd has capacity to provide high level services to interstate clients, combining onsite and workshop delivery.

Contact: Geoff Lindrea  
Phone: (03) 5142 0100  
Email: geoffl@rotafab.com.au

## **SAFETECH**

Safetech manufactures a range of hoists and lifts, from the cleverly-designed Palift, used for loading and unloading pallets, through to large truck lifts that can hoist fully laden vehicles inside large scale retail developments. Their experienced team can design and commission specialist lifting equipment that is fit for purpose.

Contact: David Wakefield  
Phone: (03) 5127 4566  
Email: davidw@safetech.com.au  
Web: www.safetech.com.au

## **STABLE AUSTRALIA PTY LTD**

Stable Australia Pty Ltd provides a complete engineering solution including project management, labour hire, structural steel and mechanical fabrication, steel erection, maintenance, pressure parts, transport and crane hire. Products are designed to meet the needs of major industrial and resource-driven activities.

Contact: Steven Buhagiar  
Phone: (03) 5133 9955  
Email: steven@stableengineering.com.au  
Web: www.stableengineering.com.au

## **SUPERIOR ENERGY SERVICES (AUSTRALIA)**

Superior Energy Services (Australia) provides manufactured equipment and repair services within the oil and gas and other industries, including premium threading, machining, welding and fabrication services. The company holds API 7-1, ISO 9001 and ISO 18001 certification.

Contact: Peter Jellis  
Phone: (03) 5143 2225  
Email: peter.jellis@superiorenergy.com

## **TOP WELDING AND CONSTRUCTION**

TOP Welding and Construction is one of Australia's premier piping and high pressure welding fabricators. They specialise in fabricating spooling, tanks, structural steel in carbon and alloy steel, as well as providing labour for maintenance work and shut downs for the oil, gas, mining, water, paper and power industries.

Contact: Leigh and Bobby Pacunskis  
Phone: (03) 5134 3533  
Email: topwelding@topwelding.com.au  
Web: www.topwelding.com.au

## **TRADEWELD (VIC.) PTY LTD**

Tradeweld (Vic.) Pty Ltd began as a small engineering company in 2000 offering a service to the mining industry. Since then the company has expanded its workforce, premises and capabilities, offering quality products to meet or exceed the customer's requirements in both quality and delivery schedules.

Contact: Wayne McCulloch  
Phone: (03) 5174 0499  
Email: tradeweld@bigpond.com  
Web: www.tradeweld.com.au

## **TRARALGON INDUSTRIES**

Traralgon Industries a leading company in the provision of engineering and turnkey solutions. The company has vast experience working on major construction and maintenance projects for the power generation, oil and gas, food processing and paper industries. The highly experienced team provide services that include fabrication, welding, mechanical installation, scaffold access, industrial cryogenic and thermal insulation and cladding. With the ability to mobilise teams with portable workshops anywhere in Australia.

Contact: Ross Castello  
Phone: (03) 5174 4299  
Email: info@tindustries.com.au  
Web: www.tindustries.com.au

## **TRUSTWELD ENGINEERING**

Trustweld Engineering is a quality certified company, accredited to ISO 9001 and specialising in structural steel fabrication. Trustweld brings a wealth of experience in project management skills. Trustweld has a large, fully equipped workshop with qualified, experienced boiler-makers and welders. Major industries serviced include the oil and gas and power industries. Trustweld are continually focused on providing customer satisfaction, quality controlled products and a safe and harmonious workplace.

Contact: Nick Vitale  
Phone: 0418 141 172  
Email: nick@trustweld.com  
Web: www.trustweld.com

## **UNION HYDRAULICS PTY LTD**

Union Hydraulics PL has serviced Gippsland and the surrounding area since 1981. The company offers custom engineered hydraulic systems and equipment, installation, commissioning and maintenance across all industry groups, and also markets a wide range of industrial, mobile and hydraulic accessories. The company specialises in fluid management and contaminated fluid cleaning solutions, with a fleet of fully mobile oil flushing equipment to suit your needs.

Contact: Denis Lucardie  
Email: sales@unionhyd.com.au  
Web: www.unionhyd.com.au

## **VINCENT PAINTING CONTRACTORS**

Vincent Painting Contractors provides surface preparation and protective coatings that add value to customer assets. Recognised as a leader in industrial coatings application, Vincent Painting Contractors provide solutions through consultation and experience. With site locations at Morwell and Barry Beach, Vincent Painting Contractors are accredited with ISO 9001, ISO 4801 and ISO 14001.

Contact: Wayne Vincent  
Phone: 0429 009 617  
Email: wayne@vincentpainting.com.au  
Web: www.vincentpainting.com.au

## **WELDTEK PTY LTD**

Weldtek Pty Ltd specialises in structural steel welding and fabrication services, stainless steel and all aspects of general boilermaking. Established in 2013, Weldtek has rapidly grown into a well-respected company focussed on precision, quality workmanship and excellent customer service. The business is owned, operated and managed by Clinton Styles. He has years of skilled experience and a fully qualified team of tradesmen.

All steel is fabricated in their Traralgon workshop, where they always utilise local businesses to transport, erect or supply materials to complete their jobs.

Contact: Clinton Styles  
Phone: 0409 742 814  
Email: admin@weldtek.com.au

## **ZCG SCALAR**

ZCG Scalar offers an integrated approach to radio frequency solutions. The company provides the best in high quality, reliable antenna systems that deliver long-term, trouble-free service whether it be for a major broadcaster, emergency services provider, mining company or 4WD enthusiast.

Contact: Graham Cole  
Phone: (03) 5157 1203  
Email: sales@zcg.com.au  
Web: www.zcg.com.au

# LATROBE VALLEY VICTORIA

Latrobe City, one of Victoria's four major regional centres, covers 1,422 square kilometres and is located around 150 kms east of Melbourne, within easy reach of national and international transport hubs. Specialist businesses provide industrial manufacturing and engineering services to meet the needs of the oil, gas, mining and energy sectors.

The municipality's strengths include access to affordable housing, excellent education facilities including a university, a broad range of retail and entertainment options and significant health services providers, including regional and private hospitals. Latrobe City also boasts a diverse range of quality sporting and recreation facilities, which are used for elite and diverse events such as AFL pre-season matches, international tennis tournaments, archery and water ski championships.

Latrobe City is a vibrant regional centre with cultural amenities such as the Latrobe Regional Gallery, a Performing Arts Centre, well-stocked and connected libraries, and an eight screen cinema complex. Lifestyle options include easy access to beaches, national parks, lakes and snowfields.
