TRARALGON EAST-WEST LINK

Invest in the Traralgon East-West Link to:

- Enhance the connectivity of the Traralgon community
- Improve road safety and reduce traffic congestion.

ADVOCACY AGENDA 25/26 PROPOSAL #8:

TRARALGON EAST-WEST LINK

Latrobe City Council is calling on state and federal governments to invest in road infrastructure that will support our growing population and growing towns.

Latrobe City Council is calling on both state and federal governments to invest in a Traralgon East-West Link to improve liveability and connectivity for our community.

As Traralgon continues to grow, we need investment in road infrastructure that will future-proof the road network, alleviating congestion and improving safety around the city centre.

The Traralgon East-West Link will divert traffic away from the Princes Highway and provide the community with an efficient and logical route to commute across town without the need to go via the city centre.

Presently, there are no viable east-west connections to the north of Traralgon, meaning commuters are required to travel via the city centre. This creates safety issues in and around the town centre and pushes traffic onto the already busy and congested Princes Highway.

This is why we have created a plan to support traffic from the east to the west of Traralgon.

This project paves the way for the continued growth of Traralgon as a vital regional centre with a focus on enhancing the connectivity of our community.

We are calling for:

- ✓ An investment of \$500K to complete a business case and further investment to deliver the Traralgon East-West Link.
